Wisconsin Local Employment & Unemployment Estimates Released

MADISON – The Department of Workforce Development (DWD) today released the U.S Bureau of Labor Statistics (BLS) estimates of unemployment and employment statistics for metro areas, major cities, and counties in Wisconsin. The estimates include updates for June 2017 and the preliminary estimates for July 2017. These numbers are not seasonally adjusted. In brief, the estimates showed:

- **Metropolitan Statistical Areas:** Preliminary July 2017 unemployment rates decreased in all areas when compared over the year to July 2016 and decreased or remained the same in all areas compared over the month to June 2017. The largest 12-month decline was 1.3 percent in Racine. The rates ranged from 2.5 percent in Madison to 4.2 percent in Racine.
- **Municipalities:** Preliminary July 2017 rates decreased in the state's 32 largest municipalities when compared over the year to July 2016 and decreased or remained the same in 30 of the 32 compared over the month to June 2017. The latest rates ranged from 2.4 percent in Fitchburg to 5.4 percent in Racine.
- **Counties:** Preliminary July 2017 rates decreased or remained the same in all 72 counties when compared over the year to July 2016 rates and decreased or remained the same in 67 of the 72 compared over the month to June 2017. The largest over the year decline was 1.8 percent in Sawyer county. The latest rates ranged from 2.5 percent in Dane and Iowa to 7.4 percent in Menominee.

The release of the July 2017 local rates follows last week's release of BLS monthly estimates showing a preliminary seasonally adjusted unemployment rate of 3.2 percent in July 2017 while the state added 26,500 total non-farm jobs and 25,000 private-sector jobs from July 2016 to July 2017, with a significant year-over-year gain of 9,600 manufacturing jobs.

Other indicators of the state of Wisconsin's economy include:

- Wisconsin's labor force participation rate of 68.8 percent continues to outpace the national rate of 62.9 percent.
- The latest available QCEW figures covering the first quarter of 2017 show a gain of 27,723 private-sector jobs in the 12-month period ending in March 2017.
- QCEW also shows a 7.7 percent increase in total quarterly private sector wages from March 2016 to March 2017.
- Moody's Investors Service has upgraded the states credit rating, noting that "(T)he stable outlook reflects the expectation that the state will experience moderate economic growth and will continue its prudent fiscal management practices."
