

AA/EEO OUTREACH DIRECTORY

WISCONSIN APPRENTICESHIP SYSTEM

Apprenticeship training is an invaluable resource for both employers and apprentices. Yet, many individuals in Wisconsin are unaware of such opportunities. With the aim of attracting a wider range of qualified applicants to apprenticeship programs, and to assist sponsors in meeting state and federal outreach requirements, the Bureau of Apprenticeship Standards (BAS) has compiled this handbook. Consisting of educational, governmental and community contacts, the handbook can be used as a resource to assist in circulating notices of apprenticeship opportunities and in forming partnerships for the purposes of cultivating and recruiting future apprentices. The handbook is organized based on the state's technical college system.
