CTE INCENTIVE GRANTS
2022 APPROVED CERTIFICATIONS LIST
Last Updated: 6/27/2022

This list contains the complete set of approved CTE Incentive Grants certifications earned in the 2021-2022 school year. The list includes the industry-recognized certifications available to high school students in the workforce shortage career clusters. Developed in cooperation between the Department of Workforce Development (DWD), Department of Public Instruction (DPI), and Wisconsin Technical College System Office (WTCS), these certifications take into account certifying agency recognition and validity, student accessibility, and programmatic rigor.

The certifications fall into five categories.
1. State Certified Work-Based Learning Programs- DPI Cooperative Education Skill Standards (Skills Co-Op),
2. State Certified Work-Based Learning Programs- DWD Youth Apprenticeship (YA),
3. Business & Industry Recognized Certifications,
4. Wisconsin Technical College Certifications, and
5. Wisconsin Certified Pre-Apprenticeship Programs.

This list is revised annually to ensure relevance to current industry needs. Lists in effect for previous academic years are available on the DWD's CTE Incentive Grants web page at Career and Technical Education (CTE) Incentive Grants (wisconsin.gov), but the documentation requirements listed on this document apply to all claims filed for certifications earned by students who graduated with the Class of 2022.

The DPI hosts a similar CTE Incentive Grants website, at https://dpi.wi.gov/cte/technical-incentive, but with different resources than the DWD CTE Incentive Grants web page.

School and district staff must refer to the annual Approved Certifications List for the year in which each <u>certification was earned</u> to confirm that the certification was approved for that year.
