

**Wisconsin Department of Workforce Development
Bureau of Job Service
2025 Seasonal Migrant Agricultural Workers Population Report**

2025 Seasonal Migrant Agricultural Workers (including H-2A Workers) in Wisconsin

Wis. Stat. 103.90-103.97 provides protections for migrant workers who temporarily leave their principal out-of-state residence and come to Wisconsin for not more than 10 months in a year to accept seasonal employment in agriculture, horticulture, or food processing.

Company/Business	County of Operation	DOL Certified H-2A workers^^	H-2A workers employed in 2025^2	Migrant Workers in Food Processing	Migrant Workers in Agricultural	Non-working migrants**

°Originally hired H-2A worker(s) left position; a new worker(s) was hired using the same petition.						
*Some or all H-2A workers hired through a migrant labor contractor.						

The Migrant Population Report reflects the number of migrant seasonal workers and H-2A visa holders as reported by employers. Not all employers of migrant workers responded to the survey. The data provided has not been verified by the department. A blank space indicates a lack of response from the employer.
**Non-workers are non-working family members of migrant seasonal farmworkers as reported by employers. The non-worker population does not represent the total number of non-workers in the state.
^H-2A workers are temporary, nonimmigrant workers who are provided a visa to perform agricultural labor or services of a temporary or seasonal nature. Employers obtained certification from the U.S. Department of Labor (DOL) after they demonstrated there were insufficient qualified U.S. workers available and willing to perform the work at wages that meet or exceed the prevailing wage paid for that occupation in the area of intended employment. This number is the number of H-2A workers who were used by the employer by hiring them directly or through a migrant labor contractor.
^^This number reflects the number of H-2A worker positions that was certified by the USDOL.
The data provided in this report is a record of the department's outreach and enforcement activities and does not purport to provide comprehensive data about the migrant farmworkers in Wisconsin.

Migrant Worker Population Trend Report (1978-2025)

YEAR	Agricultural Workers	Food Processing Workers	Non-Workers**	H-2A Workers^^	Total

H-2B visa data is not included in this report. The H-2B temporary non-agricultural program permits employers who meet the program requirements to hire nonimmigrant workers to temporarily come to the U.S. to perform non-agricultural services or labor based on the employer's temporary need. The employer must establish that its need for non-agricultural services or labor is temporary in nature, regardless of whether the underlying job is permanent or temporary.
