

Sid Sealants lost a lawsuit with former employees and the bricklayers Union for paying cash.

They had these guys on many jobs but one that was listed was the Dane County Airport parking structure. Prevailing wage was still in effect, \$20 hr cash paid on the job. Im sure the job had certified payroll etc.. If the situation was litigated by others and the State didn't even follow up on this how are they going to do anything where they actually need to litigate the case them self.

Sid Sealants had an unfair advantage as well as short changing the Employees from all insurances as well as the state on taxes. They are the largest sealant company in the state right now because they were allowed to operate illegally.

Attached is a case file so you can follow up and make it right
