JOINT ENFORCEMENT TASK FORCE ON MISCLASSIFICATION AND PAYROLL

Independent Contractor Test Work Group

Recommendation for Task Force

Based on the Independent Contractor Test Work Group's research and discussion, the group has concluded it is not feasible to move forward with a single, Independent Contractor Test at this time. However, to help reduce worker misclassification the work group recommends the creation and adoption of a unified worker questionnaire. While the worker questionnaire may not be entirely comprehensive, nor replace a unified, Independent Contractor Test, it would provide guidance for the creation of an Independent Contractor Test.
