

Student Name: _____

Date: _____

Career Plans: _____ Full-time employment _____ Technical College _____ University _____ Other _____ Uncertain

A curriculum map is required for all youth apprentices. The purpose of the map is to ensure that students have sufficient credits to graduate and will meet the post-secondary credit requirements (if any) they need to pursue their career plans. The units listed below reflect DPI minimum credit requirements for high school graduation. Technical college and university requirements may vary. Total units should reflect, at a minimum, the credits required for the student to graduate from his/her particular high school. This map is provided as an example. A different map may be substituted if it includes the same information.

Youth Apprenticeship Curriculum Map

Grade Units	English 4	Math 2	Soc Studies 3	Science 2	PE 1 ½	Health Education .5	Youth App. Classes & WBL	Art/Music Lang/Other
